Hood's Pills are the best after-dinner Pills, assist digestion, prevent constipation.

Improved Revolver,

The new German revolver is not really a revolver at all, but it is a wonderful repeating pistol all the same. All you have to do is to drop eight cartridges into a magazine in the stock and then buil the trigger as often as you want to shoot until the ammunition is exhausted. The recoil of the shot when the pistol is first fired sets in motion mechanism she'll pray with you, you poor, miser-which ejects the shell just fired, able sinner."—Brooklyn Life. prings up a new one to the barrel, cocks the pistol, and locks the movable parts. Another touch on the trigger repeats the operation, and the eight charges have been fired in

by preparing the system for parturition, thus assisting Nature and shortening "Labor." The painful ordeal of childbirth is robbed of its terrors, and the dangers thereof greatly lessened, to both mother and child. The period of confinement is also greatly shortened, the mother strengthened and built up, and an abundant secretion of nourishment for the child promoted.

Send to cents for a large Book (168 pages), giving all particulars. Address, World's DISPENSARY MEDICAL ASSOCIATION, 663 Main St., Buffalo, N. Y.

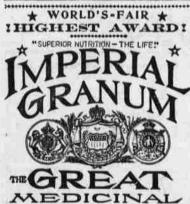

PAINLESS CHILDBIRTH.

PAINLESS CHILDBIRTH.

Mrs. FRED HUNT, of Glenville, N. Y., says: "I read about Dr. Pierce's Favorite Prescription being so good for a woman with child, so I got two bottles last September, and December 13th I had a twelve pound baby girl. When I was confined I was not sick in any way. I did not suffer any pain, and when the child was born I walked into another room ed into another room and went to bed. I keep your Extract of Smart-Weed on hand all the time. It was very cold weather

and our room was Mas. Hunt. very cold but I did not take any cold, and Mas, Hunt. very cold but I did not take any cold, and never had any after-pain or any other pain. It was all due to God and Dr. Pierce's Favorite Prescription and Compound Extract of Smart-Weed. This is the eighth living child and the largest of them all. I ouffered everything that flesh could suffer with the other babies. I always had a doctor and then he could not help me very much, but this time my mother and my husband were alone with me. My baby was only seven days old when I got up and dressed and left my room and stayed up all day."

Field's Washington. NOT BURNING HER SHIPS. Standing in silence by the ship's rail they watched until the shores of her native land were lost to sight.

Fondly the prince looked into the face of his bride.

"Darling," he tenderly asked, "do you look to the future with any feeling of uncertainty?"
"No. See!"

To prove her trust, she showed him the return trip ticket she had purchased. - Puck.

MILD IN COMPARISON. "If that man had spoken to me as he did to you," said one of the by-standers, after the crowd on the corner had dwindled away, "and called me a drivelling idiot, a sneaking scoundrel, a pie-faced muttonhead, a measly hypocrite, a hump-shouldered villain and an all-around chump with skull full of cold mush instead of brains, I'd have knocked him down." "Why, great Scott!" responded the big, good-natured man in the heavy overcoat, "I'm used to worse than that. I've run twice in my life for Sheriff."-Chicago Tribune.

NEW USE FOR WATER. Colonel Kaintuck-"Talking about sleight-of-hand, the most miysterous trick I ever saw was in a little town in Kentucky. The man wasn't a pro-fessional either, but just a bright young fellow who had a genius for such things. He took a glass of water and held it up before us all, and then we threw a big tablecloth over him.

sir, not a drop in it. Friend-"Perhaps he drank it." Colonel Kaintuck - "By Jove! Maybe he did. Never thought of it."

In two minutes he threw off the cloth

-and there was the glass empty; yes,

LEARNING TO COOK.

"No, ma'am," said the grocer, making a great clattering among his tins; "I have coffee-pots and tea-pots, but there isn't such a thing as a jack-

pot in the store."
"I'm so sorry," wailed the young wife; "you see, we haven't been mar-ried long, and my husband's mother has always cooked for him, and when I heard him talking in his sleep about a jack-pot I thought 1'd get one, for he mentions if so often he must be used to it. Could you tell me what they cook in it?"

"Greens, ma'am," said the grocer, and he sent her to the tin-store in the next block.—Detroit Free Press.

BY INTIMATION.

The young man had been to sea, and on his return was narrating to his uncle, an old Montgomeryshire farmer, an adventure which he had met with on board ship: "I was one night leaning over the taffrail, looking down into the ocean," he said, "when my gold watch fell from my fob, and ima gentleman to look down on. It's mediately sank out of sight. The ship was going ten knots an hour, but, nothing daunted, I sprang over the rail, down, down, and after a long search found the watch, came up, and chased the ship, and climbed back to the deck without anyone knowing I had been absent.

"William," said his uncle, "I believe thee; but there's many a thousand that would not.

"What!" exclaimed William, "you are politely insinuating that I'm a

"William," said the old man gravely, "thee knows that I never call anybody names; but if the Mayor of Welshpool were to come and say, Josiah, I want thee to find the biggest liar in all Montgomeryshire,' I would come to thee and put my hand upon thy shoulder, and say to thee: 'William, the Mayor wants to see thee.'"—Epworth Herald.

Living Without Their Heads. There are several species of insects that continue to live without seeming inconvenience for some time after de capitation, exact knowledge on the length of time which the various species of insects would survive such mutilations being somewhat vague. Professor Conestrini once undertook a series of experiments with a view of determining that and other facts in relation to the wonderful vitality of such creatures. In each case the head | it dry. was smoothly removed with a pair of thin-bladed forceps, and when spontaneous movements of wings and legs ceased he employed sundry irritating devices, such as pricking, squeezing and blowing tobacco smoke over the the insects. As a result of these eperiments he ascertained that members of the beetle family at once showed signs of suffering, while such as the ants, bees, wasps, etc., remained for hours unaffected. Some seemed stunned from the effects of the operation, recovered after a time and continued to live and enjoy a headless existence for several days. Butterflies and moths seemed but little affeeted by the guillotining process, and the common flies appeared to regard the operation as a huge joke. -New York Telegram.

Most Remarkable Creature in the World

The most remarkable creature in the world is the hydra. It does not amount to much physically, for it is nothing but a sack, open at one end and fastened by the other to a stone, but it is almost impossible to kill it. Turn a hydra inside out and it will get along just as well as before. Trembley, the French naturalist, cut hydras in slices, and each, in a few days, became a fullgrown animal. He grafted them, and produced monsters with six mouths and only one body. He divided them Clerk (who has had sickness in the of hydras. He found this creature is Clerk (who has had sickness in the family, to his employer)—"I would respectfully ask you for an advance; when a part of a hydra's body decays, yesterday I had to pay my doctor's it throws it off and replaces it, as a bill, amounting to one hundred and this creature is superior even to decomposition, for when a part of a hydra's body decays, it throws it off and replaces it, as a matter of course.—St. Louis Globe-thirteen marks." HOUSEHOLD MATTERS.

CLEANING POULTRY PRATHERS. The cleaning of poultry feathers is a protracted and tiresome business. Whenever a fairly plentiful supply has been collected they should be cleansed and then put away till suffi-cient for stuffing the required article have been obtained. The process of cleaning is as follows: Allow one pound of quick lime to every gallon of water; let this stand until the undissolved lime is precipitated, and then pour off the liquid. Put the feathers into a thoroughly clean tub, pour the mixture over them, stirring all the time until they sink to the bottom; the quantity of water must depend upon the amount of feathers, there should be sufficient liquid to cover the above to a depth of at least three inches. Leave this to stand for four days, then take out the feathers with the hand, shaking them in doing so, throw them into a large sieve, and there wash and rince them in clean water, which should be poured out through the nose of a watering pot. Shake the feathers well during this part of the process. Have a large meshed net, like a cabbage net, suspended from two nails across a shed, or, preferably, a warm, sunny, empty room; under this net spread some large sheets of brown paper, or a clean hearthcloth. Put the ferthers into the net and shake it occasionally; all the dry ones will fall to the ground. When the net is empty, heat the feathers in layers on paper in a slack oven, then put them into a large cloth; hold this up loosely by the four corners only and beat with a thin

HOT-WATER BAGS.

New York Telegram.

stick to extract the dust. Keep them

in a dry drawer till as many have been

collected as are required for use .-

When the india rubber hot-water bag is as inexpensive as it is at present, it becomes almost a duty to possess one. The water to fill them is always attainable, and the comfort of the possession will amply repay the expense. Frequently they relieve pain in a far simpler and more effectual maner than does any medicine. A bag placed on the side of the neuralgic face will cause the blood to flow to that part and bring nourishment to the starving nerve. A fit of indigestion may be overcome in a similar manner. The weak heart may beassisted by a very scantily-filled bag being placed under the left arm, against the side. In the summer hotel on a rainy day it will make one quite fearless of the half-aired sheet and chilly bed, and thereby ward off the attack of the "blues" which cold, unseasonable summer weather often produces.

Then again, carefully concealed in its dark-colored bag, what a comfortable companion for a long, cold country drive. Always soothing, never contradictory, it is actually a lifesaving machine. The writer remembers bringing up a motherless puppy dog, with an inherited delicacy of constitution, with the sole assistance of a feeding bottle and a hot-water bag. He throve in strength to the extent of demolishing most of his preserver's

wardrobe, but he never meant harm. Many as are the blessings of the hotwater bottle, it must not be forgotten that it is also a source of some danger. Always see that the stopper is absojutely tight, and never use it without a thick cover. Many a painful burn has it given, especially to an unconscious patient or to an old person. In old age, the circulation being weaker, the vitality becomes low. A thick cover will keep the water longer warm, as well as insure against burns. Filling the bag quite full will also cause the heat to be retained for a longer time, but will not be as comfortable as when half full. When not in use the bag should be emptied .-Good Housekeeping.

Ham Toast-Mix with one tablepoonful of finely chopped ham the beaten-up yolk of an egg and a little cream and pepper. Heat over the fire, and then spread the mixture on thin slices of hot buttered toast.

Indian Griddle Cakes-One quart of sculded milk, one pint of Indian meal, four eggs, four tablespoonfuls of flour, a little salt. Pour the milk on the Indian meal, and when cool add flour, salt and the eggs well beaten. Stir vigorously.

Soft Spread Toast-Toast the bread and spread it while it is hot. Have ready half a pint of hot milk or water, dip the toast in it very quickly that it may not soak too much, but merely to moisten it. Dry toast should never be laid one slice upon another, but set on the edge in a toast rack to keep

Old Fashioned Johnny Cake-One cup of flour, one cup of fine yellow corn meal, one-fourth cup of sugar, one and one-half teaspoonfuls of salt. two teaspoonfuls of baking powder, one egg, well-beaten, one cup milk, one tablespoonful of butter, softened. Mix in order given, beat well, pour into a well-greased pan, and bake in a moderate oven for twenty-five min-

Beef Cakes--Mince the meat very fine. Boil and mash potatoes equa to one-third the quantity of the meat, mix them together thoroughly, season with pepper and a few sprigs of parsley minced. Add the beaten yolk of one egg to bind it. Wash and flour your hands. Make the mince into cakes about the size round of the top of a teacup, and fry them a nice brown in hot butter or beef drippings. Serve on a napkin with a garnish of fried celery.

Ground Rice Pudding-Three pints of milk, five tablespoonfuls of ground rice, five eggs, one-half nutmeg grated, juice and grated rind of one lemon sugar to taste. Mix the rice with a little of the cold milk; put the remainder of the milk into a double boiler, and when boiling stir in the rice mixed with the cold milk. Add a piece of butter the size of an egg, keep it on the fire till it thickens, stirring constantly. When nearly cold add the eggs well beaten and the other ingredients. Turn into a dish and bake three-quarters of an hour.

Herr Boeter, of the German army, insists that man, to be healthiest, subsist on fruits.

KENNEDY'S MEDICAL DISCOVERY.

CHRONIC RHEUMATISM.

MONROR, IOWA, Nov. 25, 1894. DEAR SIR, MR. KENNEDY:—In '64 I began taking your Discovery for Chronic Rheumatism; suffering so much pain till I used to call some one to sit on my limbs to deaden the pain. I had doctors for six years. No use. I then began with your Medical Discovery. The first bottle went to every joint and gave me pain. My husband said, "Keep on, till you see it spring the joints." So two and one-half bottles cured me so that I was able to walk two Had not done it for six or seven years. I have kept it in the house ever since. I opened the 22d bottle today, for I take it instead of doctoring. I have never had a doctor since I have taken your Discovery. I am a widow 74 years of age, and a well woman.

Yours truly, MRS. ELIZABETH HILLS.

SCROFULA.

LLOYD, TEXAS, Oct. 5th, 1894.

Donald Kennedy, Roxbury, Mass, Kind Friend:—I will now give you the particulars about my little girl.

She was five years old the 2nd of last May. When she was less than a year old a kernel came under her right jaw on her neck. I asked the best doctor what to do, and he told me to grease it with old bacon grease, and it might rise her neck. I asked the best doctor what to do, and he told me to grease it with old bacon grease, and it might rise and run which it did, and I tried everything, but it kept running for nearly two years. I came to Texas, and was at Aubrey, Texas, where I saw the present postmaster at Aubrey. I noticed his face had a bad scar, and I asked him the cause and how he got it cured. He said Scrofula was the cause and Kennedy's Medical Discovery cured it and if I would get some for my little girl it would surely cure her. I got one bottle and she was soon better. I picked white lumps out of her neck as big as peas, and almost as hard as a bone, and after being mashed up they looked like burnt bone crumbled up. In less than a week the swelling was gone, and had quit running. She is still taking it, but apparently she is as well as ever, and as gay as any child.

S. L. JACKSON. Yours truly.

CATARRH.

DONALD KENNEDY, DEAR SIR: - I know the worth of your Discovery, for three years ago, before I was married, I had the Catarrh in my head and throat very bad, and my mother, who always gave it to all of us, made me take three bothes, for which I am thankful to God, for it cured me and many others that we have recommended it to.

MRS. ELLEN SEELEY, 217 39th St. Chicago,

FOR MOTHERS.

ELMIRA, N. Y., Oct. 25, 1894. DR. KENNEDY. DEAR SIR: -- I have taken your Medical Discovery all through my Pregnancy, and our boy, now three months old is, and has been, in perfect health, while we have three other children, all of whom had eczema and sore mouths. Our attending physician speaks very highly of your Discovery.

Yours sincerely, MRS G. W. HAMMOND.

DROPSY.

HAUGHVILLE, IND., Nov. 21, 1894. DONALD KENNEDY, DEAR SIE:-Your Medical Discovery has made a wonderful cure in a case of Dropsy of my neighbor, after four or five good doctors told him he could not get well. But your Discovery fixed him all right. SAMUEL NUGENT. Yours truly,

MALARIA.

St. XAVIER, MONT., Nov. 12, 1894. DR. KENNEDY, DEAR SIR:—I must inform you of the good effects of your famous Medical Discovery. One lady who was much afflicted with a constant Malarial Trouble declared herself relieved in a few days, and was entirely cured in a few weeks, and this is only one of many.

SISTER M. MAGDALEN. Yours gratefully,

KIDNEY TROUBLE.

New York City, May 9th, 1894.

Donald Kennedy, Dear Sir:—In using your Medical Discovery I find it good for the general system and especially for the Kidney Trouble. And the reason I can speak for it is this: After coming from South America, in 1880, I was troubled with my back, which the doctors claimed was Kidney Disease. After using many different medicines—and I might just as well have drunk cold tea—I bought two bottles of Kennedy's Medical Discovery, and took it according to directions as given in your book, and my kidneys have not troubled me since. CHAS. W. ALLYN, 26 East Fourth Street. Yours with thanks,

PRICE, \$1.50 PER BOTTLE, LASTING IN REGULAR DOSES, ONE MONTH. SOLD EVERYWHERE AT LOCAL STORES AND BY EVERY WHOLESALE DRUGGIST IN THE U. S. MANUFACTURED BY DONALD KENNEDY, ROXBURY, MASS.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and please.

in the form most acceptable and pleas-ant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kid-neys, Liver and Bowels without weak-ening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

There is more Catarrh in this section of the sountry than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a locas disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional erre on the market. It is taken internally in doses from 19 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials free. Address one hundred dollars for any case it fails tours. Send for circulars and testimonial free. Address.
